

University of Sussex Awards PhD scholarship to School of Mathematics Student

Mr. Benard Kipchumba of The School of Mathematics has been awarded the "Chancellor's International Research Scholarship" by the University of Sussex U.K. The Scholarship will be commencing September 2014 and will run for 3 years.

Mr. Kipchumba has been an exemplary student as an undergraduate and Masters student. As a postgraduate student he mastered in Applied Mathematics.

The scholarship is awarded to 10 students globally per year in 10 departments- that is 1 per department. It is very competitive since it targets 1 student per program. It is meant to enhance research among graduate students.
